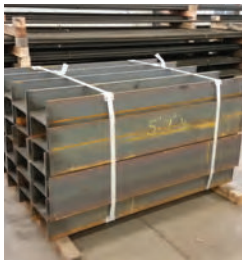
Redback® Woven Strapping

A Safe and Superior Alternative to Steel Banding



Redback® outperforms steel banding and provides optimum protection against serious injury to employees and customers. Redback ® can absorb impacts and load shifting that would normally break steel banding, and it will not lash-back dangerously when cut. Redback® is fast and easy to use and stays strong and tight on product without causing rust or damage. Redback® is ideal for securing heavy loads, bundled loads and irregular shaped objects. Redback® can be fastened with a buckle or hand tied.

TM375
1-1/2" Heavy Duty Tensioner

TM325
Up To 3/4" Heavy Duty Tensioner

TRT6
Up To 3/4" Regular Duty Tensioner

TMZT
Manual Leverage Tensioner

Features & Benefits

- Maximum impact resistance
- Minimal lash-back when cut
- High joint strength
- Low elongation
- Maintains tension over time
- Will not rust or damage goods
- Soft on hands and your load
- Easy to handle and dispose
- Low tool cost
- Low tool maintenance
- 1/4 the weight of steel
- UV Resistant
- Economical

T307
Wheeled
Dispenser

T3032-3
Forklift Mounted
Dispenser
